## PROFESSIONAL SUMMARY

A dedicated and results-driven **Healthcare Data Analyst** with over **6 years** of experience in data analysis, machine learning, and predictive modeling. Skilled in transforming business needs into technical solutions using modern data science tools and practices. Passionate about solving real-world problems through data-driven approaches and delivering measurable outcomes.

## CORE SKILLS

- **Technical Skills:** Bayesian Inference, Git, Natural Language Processing, EDA, PostgreSQL, Machine Learning, C++, Model Evaluation, Google Cloud Platform (GCP), ETL Pipelines
- **Analytical Skills:** Statistical modeling, hypothesis testing, data interpretation.
- **Soft Skills:** Clear communication, collaboration, agile mindset, mentoring.
- **Tools:** Tableau, Power BI, Jupyter, Git, Docker, Cloud platforms.

## PROFESSIONAL EXPERIENCE

**Tech Solutions Inc.**

*September 2016 – May 2018*

*Role: Healthcare Data Analyst*

- Extracted and analyzed large-scale datasets to uncover actionable insights for business growth.
- Built predictive models using machine learning techniques to optimize decision-making.
- Collaborated with engineers and stakeholders on end-to-end model deployment and reporting.
- Led initiatives for workflow automation, improving data pipeline efficiency by 30%.
- Provided guidance and training to junior analysts on analytical best practices.

## EDUCATION

**Seoul National University**

*Graduated: May 2018*

*Bachelor of Science in Cybersecurity*

GPA: 3.98

- Relevant Courses: Data Structures, Algorithms, Statistics, Machine Learning, Database Systems

## SELECTED PROJECTS

### Sales Data Analysis

- Led end-to-end development of a scalable data-driven system that improved operational efficiency.
- Utilized advanced analytics and machine learning for real-time prediction and automation.
- Deployed solutions with seamless integration into business intelligence dashboards.
